**Present Land Use/Zoning/General Plan Designation:**

Utilities within a public roadway

**Project Description:** (please use a separate page if necessary)

The Joint Regional Water Supply System (JRWSS) transmission main is a water pipeline constructed in 1961 to convey potable water from Irvine to San Clemente, California, part of which is contract operated by South Coast Water District. A 2000-foot section in a residential area needs upgrading and is difficult to access for maintenance or repair. The intent of this project is to construct 2,350-foot replacement segment in Crown Valley Parkway and safely abandon the existing pipeline segment in place.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
